## **Welcome to the 300 Building the new home of the Energy and Environment Cabinet**

The 300 Building reflects the mission of the Cabinet to *“improve the quality of life for all Kentuckians by protecting our land, air, and water resources; utilizing our natural resources in an environmentally conscientious manner; and innovating and creating efficient, sustainable energy solutions and strategies that reduce greenhouse gas emissions and create a base for strong economic growth.”* The building is LEED (Leadership in Energy and Environmental Design) certified. As such, it has been designed for minimal energy use and impact on the environment.
